SAFETY DATA SHEET

Product name: FYROL FR-2
Product id: 7007
Revision date: 01/06/2014
Revision: 6
Supersedes: 20/11/2011

1. Identification of the substance & the company

Chemical name: Tris(1,3-dichloro-2-propyl) phosphate
Synonym(s): Tri(B,B'-dichloroisopropyl) phosphate; 2-Propanol,1,3-dichloro- phosphate (3:1), TDCP
Chemical formula: C9H15Cl6O4P
Chemical family: Alkyl phosphate
Molecular weight: 430.91
Type of product and use: Flame retardant
Supplier: ICL-IP America Inc.
Address: 622 Emerson Road - Suite 500St Louis, Missouri 63141, USA
Tel:(314)983-7884 Fax:(314)983-7607
e-mail:msdsinfo@icl-ip.com
Emergency Telephone: Chemtrec (800)424-9300
Medical: PROSAR 1-888-875-1685 (24HRS)

2. Hazards identification

GHS classification: Carc. Cat. 2, H351 Suspected of causing cancer
Aquatic Chronic 2 H411 Toxic to aquatic life with long lasting effects

Labels and other form of warning

Signal Word: WARNING
Hazard statements: H351 - Suspected of causing cancer
H411 - Toxic to aquatic life with long lasting effects
SAFETY DATA SHEET

Product name: FYROL FR-2
Product id: 7007
Revision date: 01/06/2014
Supersedes: 20/11/2011
Revision: 6

Precautionary statements:
- P202 - Do not handle until all safety precautions have been read and understood
- P273 - Avoid release to the environment
- P391 - Collect spillage
- P280 - Wear protective gloves/protective clothing/eye protection/face protection
- P308 + P313 - IF exposed or concerned: Get medical advice/attention
- P405 - Store locked up
- P501 - Dispose of contents/container in accordance with national and international regulations

HMIS Ratings (Scale 0-4):
- Health = 1
- Fire = 1
- Reactivity = 0

3. Composition / information on ingredients

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

4. First-aid measures

Eye contact: Holding the eyelids apart, flush eyes promptly with copious flowing water for at least 20 minutes. Get medical attention immediately.

Skin contact: Remove contaminated clothing. Wash skin thoroughly with mild soap and plenty of water for at least 15 minutes. Wash clothing before reuse. Get medical attention if irritation occurs.

Inhalation: In case of inhalation, remove person to fresh air. Keep him quiet and warm. Apply artificial respiration if necessary and get medical attention immediately.

Ingestion: If swallowed, wash mouth thoroughly with plenty of water. Get medical attention immediately.

-----------------------------
NOTE: Never give an unconscious person anything to drink
-----------------------------

Most important symptoms and effects, acute or delayed

Suspected of causing cancer.

Notes to the physician: Repeated exposure to very high doses of this product may result in cholinesterase inhibition. Additional symptoms resulting from the repeated exposure could include salivation, sweating, headache, nausea, diarrhea and tremors. Should cholinesterase inhibition occur, atropine may be used as an antidote.
SAFETY DATA SHEET

Product name: FYROL FR-2
Product id: 7007
Revision date: 01/06/2014
Supersedes: 20/11/2011

5. Fire - fighting measures

Suitable extinguishing media: Water, water fog, carbon dioxide (CO2), dry chemical, foam.

Unusual fire and explosion hazards: When heated to decomposition, may release poisonous and corrosive fumes of Carbon Dioxide, Carbon Monoxide, Hydrogen Chloride and Phosphorus Oxides.

Fire fighting procedure: Fire fighters should wear full protective clothing and self-contained breathing apparatus (SCBA). Contain runoff to prevent entry into water or drainage systems.

6. Accidental release measures

Personal precautions: Wear appropriate safety clothing and eye/face protection (see Section 8).

Methods for cleaning up: Collect in suitable and properly labeled containers. Soak up with sand or other suitable absorbant and dispose of as solid waste. Ventilate area and wash spill site after material pickup is complete.

Environmental precautions: Prevent product from entering drains, ditches and rivers.

7. Handling and storage

Handling: Avoid bodily contact. Keep containers tightly closed.

Storage: Store in a dry, cool, well-ventilated area, away from incompatible materials (see "materials to avoid"). Maximum recommended storage temperature of 54.4°C (130°F). Crystallizes at temperatures below 15°C (59°F).

8. Exposure controls / personal protection

Exposure Limits:

</tr>
</tbody>
</table>

Ventilation requirements: Adequate ventilation is recommended to control potential employee exposure.

Personal protective equipment:
- Respiratory protection: Gas mask with a new organic vapour canister.
- Hand protection: Neoprene or nitrile rubber
- Eye protection: Chemical safety goggles

</tbody>
</table>

**10. Stability and reactivity**

**Stability**
Stable under normal conditions
It hydrolyzes slowly at normal temperatures in acidic or alkaline aqueous solutions.

**Conditions to avoid**
Heating above 50 °C.

**Materials to avoid**
Strong oxidizers, strong acids and strong alkalis.

**Hazardous decomposition products**
Carbon dioxide and carbon monoxide
Hydrogen Chloride, Phosphorus oxides,

**11. Toxicological information**

**Likely Routes of Exposure**
Skin
Eye contact
Inhalation
Ingestion

### Acute toxicity:

- **Rat oral LD50**  
  >2000 mg/kg

- **Rat dermal LD50**  
  >2000 mg/kg

- **Rat inhalation LC50**  
  >5220 mg/m³

- **Eye irritation (rabbit)**  
  Slightly irritant Does not meet classification criteria

- **Dermal irritation (rabbit)**  
  Slightly irritating to skin but not sufficient for classification.

- **Dermal sensitization**  
  Not a sensitizer

### Sub-chronic toxicity:

A 90-day study (rabbit, dermal application of 1450 mg/kg) produced an increase in kidney weight, but no histological changes in any tissue. A 90-day study (rat, oral doses of 25 or 250 mg/kg/day) produced mortality and an increase in liver and kidney organ weights, but no histological changes in any tissue.

### Chronic toxicity

**NOEL:** 5 mg/kg/day (rat) Certain high dose female rats showed plasma cholinesterase inhibition of up to 30 percent

### Mutagenicity

- Mutagenic by the Ames Test
- Unscheduled DNA synthesis (rat liver) - not mutagenic
- Not mutagenic in the mouse lymphoma L5178Y test system.
- Negative in the Chromosomal aberrations test (hamster's V79 cells)
- Not clastogenic in chromosome aberration test with Chinese hamster cells.
- In vivo mouse bone marrow cytogenicity: not mutagenic
- In vivo Drosophia melanogaster test: not mutagenic

Carcinogenicity
Not classified by IARC
Not included in NTP 12th Report on Carcinogens
Not classified as a carcinogen by USA OSHA
Daily ingestion of 20 mg/kg or 80 mg/kg for two years was oncogenic to rats. No significant effects were observed at 5 mg/kg/day. Microscopic examination of the tissues and organs of the mid and high dose animals revealed significant increases in the incidence of liver nodules, benign renal cortical tumors and interstitial cell tumors or the testes. Females receiving the high dose showed an increase in adrenal cortical adenomas. No significant increase in tumor incidence was observed in the low dose animals. The substantial decrease in body weights seen in the high dose animals confirmed that the Maximum Tolerated Dose was achieved, and possibly exceeded. Although there was a significant increase in the incidence of benign tumors in mid and high dose animals, the lack of a significant incidence of malignant tumors in any treatment group confirms that the product did not demonstrate carcinogenic activity. This is consistent with the results of the mutagenicity tests which show the product is not a genotoxin and thus not a genotoxic carcinogen. In spite of the above the EU authorities reviewed the carcinogenicity of TDCP and decided to classify it as Category 2 Carcinogen (GHS). This category includes substances which cause concern to man owing to possible carcinogenic effects but in respect of which the available information is not adequate for making a satisfactory assessment.

Reproductive toxicity
Reproductive studies showed that oral administration of this product to male rabbits for 12 weeks did not adversely affect fertility or sperm quantity.

Teratogenicity
Not teratogenic

Neurotoxicity
All of neurotoxicity tests conducted consistently showed the product lacked neurotoxic activity

12. Ecological information

- 96 Hour-LC50, Fish 1.1 mg/l (Oncorhynchus mykiss)
- 48 Hour-EC50, Daphnia magna 3.8 mg/l

Biodegradation
Not readily biodegradable.

Bioaccumulative potential
Not bioaccumulative Measured fish BCF of 31-59
SAFETY DATA SHEET

Product name | FYROL FR-2
Product id    | 7007
Revision date | 01/06/2014
Supersedes    | 20/11/2011
Revision: 6

Note:
TDPC can be considered to be potentially persistent (P) or potentially very persistent (vP) based on its ultimate mineralisation. The available information on bioaccumulation shows that TDPC does not meet the B or vB criterion. The T criterion is not met.

13. Disposal considerations

Waste disposal | Observe all federal, state and local environmental regulations when disposing of this material
Disposal of Packaging | Dispose of in a safe manner in accordance with local/national regulations.

14. Transportation information

UN No. | 3082
DOT | Proper shipping name: Environmentally hazardous substances, liquid, n.o.s (tris(1,3-Dichloroisopropyl)phosphate)
     | Class: 9 - Miscellaneous Hazardous Material
     | Label: 9
     | Packing Group: III

    Not regulated for surface and air transport in non-bulk (<119 gallons) packagings.

IMDG | Proper shipping name: Environmentally hazardous substance, liquid, n.o.s (tris(1,3-Dichloroisopropyl)phosphate)
     | Class: 9 - Miscellaneous Hazardous Materials and Articles
     | Label: 9
     | Packing Group: III
     | Mark: MARINE POLLUTANT

ICAO/IATA | Proper shipping name: Environmentally hazardous substance, liquid, n.o.s (tris(1,3-Dichloroisopropyl)phosphate)
          | Class: 9
          | Hazard label(s): Miscellaneous
          | Packing group: III
          | Marking: Environmentally hazardous substance

15. Regulatory information

USA | Reported in the EPA TSCA Inventory.

Health, Safety & Environment Policy
We will strive to ensure that our operations and products meet the needs of the present global community without compromising the ability of future generations to meet their needs. We accept that the success of our business is dependent on the supply of products and services that will benefit society whilst ensuring human safety and protection of the environment and natural resources. Within the framework of our commitment to the Responsible Care program, we will provide a healthy and safe work environment for employees and will responsibly manage our products at all stages of their life cycle in order to protect human health and the environment whilst maintaining high production standards of operation.

TO MEET THIS COMMITMENT WE WILL: Comply with or exceed applicable national and international regulatory requirements and other requirements to which we subscribe. Communicate openly and actively encourage dialogue with employees, customers and community concerning our products and operations. Implement documented management systems consistent with and for promotion of the Responsible Care ethics.

Develop and supply products that can be manufactured, transported, used and disposed of safely whilst best meeting the needs of our customers. Regularly assess, continually improve and responsibly manage health, safety and environmental risks associated with products and processes throughout their life-cycles. Share knowledge and expertise with others and seek to learn from and incorporate improved practices into our own operations.

Educate and train employees, contractors and customers to improve their HSE performance. Communicate up-to-date information to enable our workers, customers and other interested parties to handle our products in a safe and environmentally responsible manner. Endeavor to work with customers, suppliers, distributors and contractors to foster the safe use, transport and disposal of our chemicals. Support Product Stewardship programs in cooperation with customers, distributors and transporters.

Although the information and recommendations set forth herein (hereinafter "information") are presented in good faith and believed to be correct as of the date hereof, ICL-IP America Inc. makes no representations as to the completeness or accuracy thereof. Information is supplied upon the condition that the persons receiving same will make their own determination as to its safety and suitability for their purposes prior to use. In no event will ICL-IP America Inc. be responsible for damages of any nature whatsoever resulting from the use of or reliance upon information. NO REPRESENTATIONS OR WARRANTIES, EITHER EXPRESSED OR IMPLIED, OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OF ANY OTHER NATURE, ARE MADE HEREREUNDER WITH RESPECT TO INFORMATION OR THE PRODUCT TO WHICH THE INFORMATION REFERS.

In an event of discrepancy between the contents of this SDS and the English version of it, the English version shall prevail.
